## Safety and Conduct Rules for Contractors

### Registration

As a contractor, you must always report to the office and sign in before entering the industrial area. Your contact person at Hilmer Andersson will receive you and ensure that you are given all necessary information regarding the rules that apply to work within the site.

### Driving Permit:

- To operate a vehicle within the industrial area, you must hold a valid driving permit issued by your contact person/ordering party.
- You have been informed about the traffic regulations that apply within the area and are obligated to follow them.
- If you are going to use lifting devices, forklifts, or mobile work platforms/lifts, you must present valid training certificates and obtain a driving permit authorizing the use of such equipment.
- You have been informed that the maximum speed limit within the area is 20km km/h.

### Safety:

- You must always wear high-visibility clothing and safety shoes with steel toecaps while in the industrial area.
- Your vehicle must be equipped with a warning beacon or flashing light.
- Personal fall protection must always be used when working from mobile work platforms. If there is a risk of collision, you must cordon off the area with cones and tape.
- A safety harness must always be worn when working at heights of two meters or more, where technical fall protection is not available.
- You are responsible for ensuring that any chemicals you bring into the facility are also removed when you leave, so that nothing is left behind.

### Emergency Preparedness

- In case of evacuation, you must go to the assembly point at the office.
- A defibrillator is located at the alignment shop, the painting shop, the saw, the fine planer, the large planer and the office

### Hot Work:

- Hot work may not be carried out without a permit from the permit issuer.
- After completion of hot work, fire watch must continue for at least 1 hour, unless another time has been determined by the permit issuer.
- As a fire watch, you are not allowed to leave the site until this has been approved by the permit issuer.
- Deviations and Incidents
- If you discover a deviation or an incident, you must immediately report it to your contact person at Hilmer Andersson.

### Alcohol and Drugs

- It is strictly prohibited to be under the influence of, or to use, alcohol, drugs, or any other substances that may impair judgment and work performance while within AB Hilmer Andersson's premises.

### Other

You are responsible for providing and using the personal protective equipment required for the work you are to perform and for the environment you will be working in. This includes, for example, high-visibility clothing, hearing protection, safety glasses, and helmet. If you have questions, contact your contact person/ordering party.

I have read and understood the above information and commit to following these rules.
